

Mains Water Filtration Product Guide

Puretec[®]
PERFECTING WATER

Filtration, providing great tasting, chlorine free, water to your home.

While councils usually make every effort to supply safe mains or town water, there are often impurities remaining that can impact your health and the enjoyment of drinking water. Puretec has an extensive range of filters from under sink to whole house filtration, which provides clean, fresh water to every tap in your house.

- 1 **WH2 Series** - Whole house filter system
- 2 **SOL Series** - Softrol Water Softening System
- 3 **PureMix Z2** - Compact High Flow Undersink Filter System
- 4 **SF Series** - Shower filter system
- 5 **PureMix Z7** - High Flow Undersink Filter System
- 6 **Tripla ELITE Series** - Three-way Mixer Tap
- 7 **SPARQ S6** - Filtered Sparkling, Chilled and Boiling System
- 8 **SPARQ S5** - Filtered Sparkling, Ambient and Chilled System

CHLORINE

Chlorine has an unpleasant taste that impacts the enjoyment of drinking water which can result in you drinking less than the daily recommended amount leaving your skin and hair feeling dry.

BACTERIA

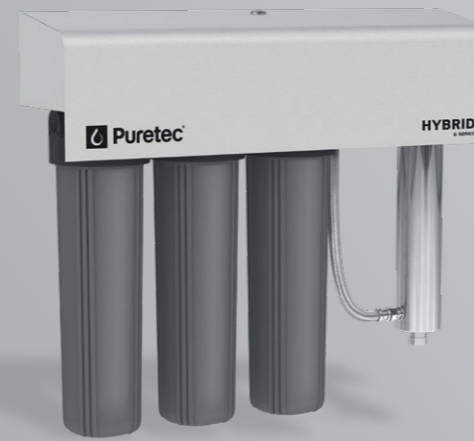

Bacteria can be present in mains water due to outbreaks of algae, E. coli and other bacteria, which can cause significant health impacts. Bacteria can be easily removed with a UV filtration system.

SEDIMENT

Sediment such as dirt, sand or rust can make its way into your water potentially resulting in a build up in your pipes & damage to your appliances, but can be easily removed with a quality water filter.

Whole House Filtration

Provides clean, great tasting water to every tap in your home.

HYBRID G13

The Hybrid G13 is the ideal solution for those switching between mains & rain water, combining a 3 stage filtration system with UV removing sediment & chlorine while killing 99.9% of bacteria.

Available in 4 colours

FILTERWALL-IM2

The FilterWall-IM2 is an Australian first, semi-recessed filtration system, combining the industry leading WH2-55 filtration system with an in-wall weatherproof, lockable cabinet.

WH2 SERIES

The WH2 is a dual filter system designed to remove sediment, chlorine, bad taste and odour from your mains water. The WH2 whole house filter is available in 1" & 1.5" connections and 30 to 60 Lpm models.

SOL 30/40 E3 WATER SOFTENER

The SOL series has been designed for hard water applications to remove calcium, limestone and other minerals that cause scale build up in your pipes, appliances and on your glassware.

Please scan QR code for more information.

PUREMIX Z6

The PureMix Z6 is a 0.1 micron filter with a max flow rate of 9.5 Lpm. It not only removes chlorine, sediment, bad taste & odour but will also remove harmful bacteria including E. coli & Giardia.

PUREMIX Z7

The PureMix Z7 utilises Z plus filtration technology to inhibit bacterial growth & scale build up in your pipes and taps, while removing chlorine, sediment, bad taste & odour down to 1 micron.

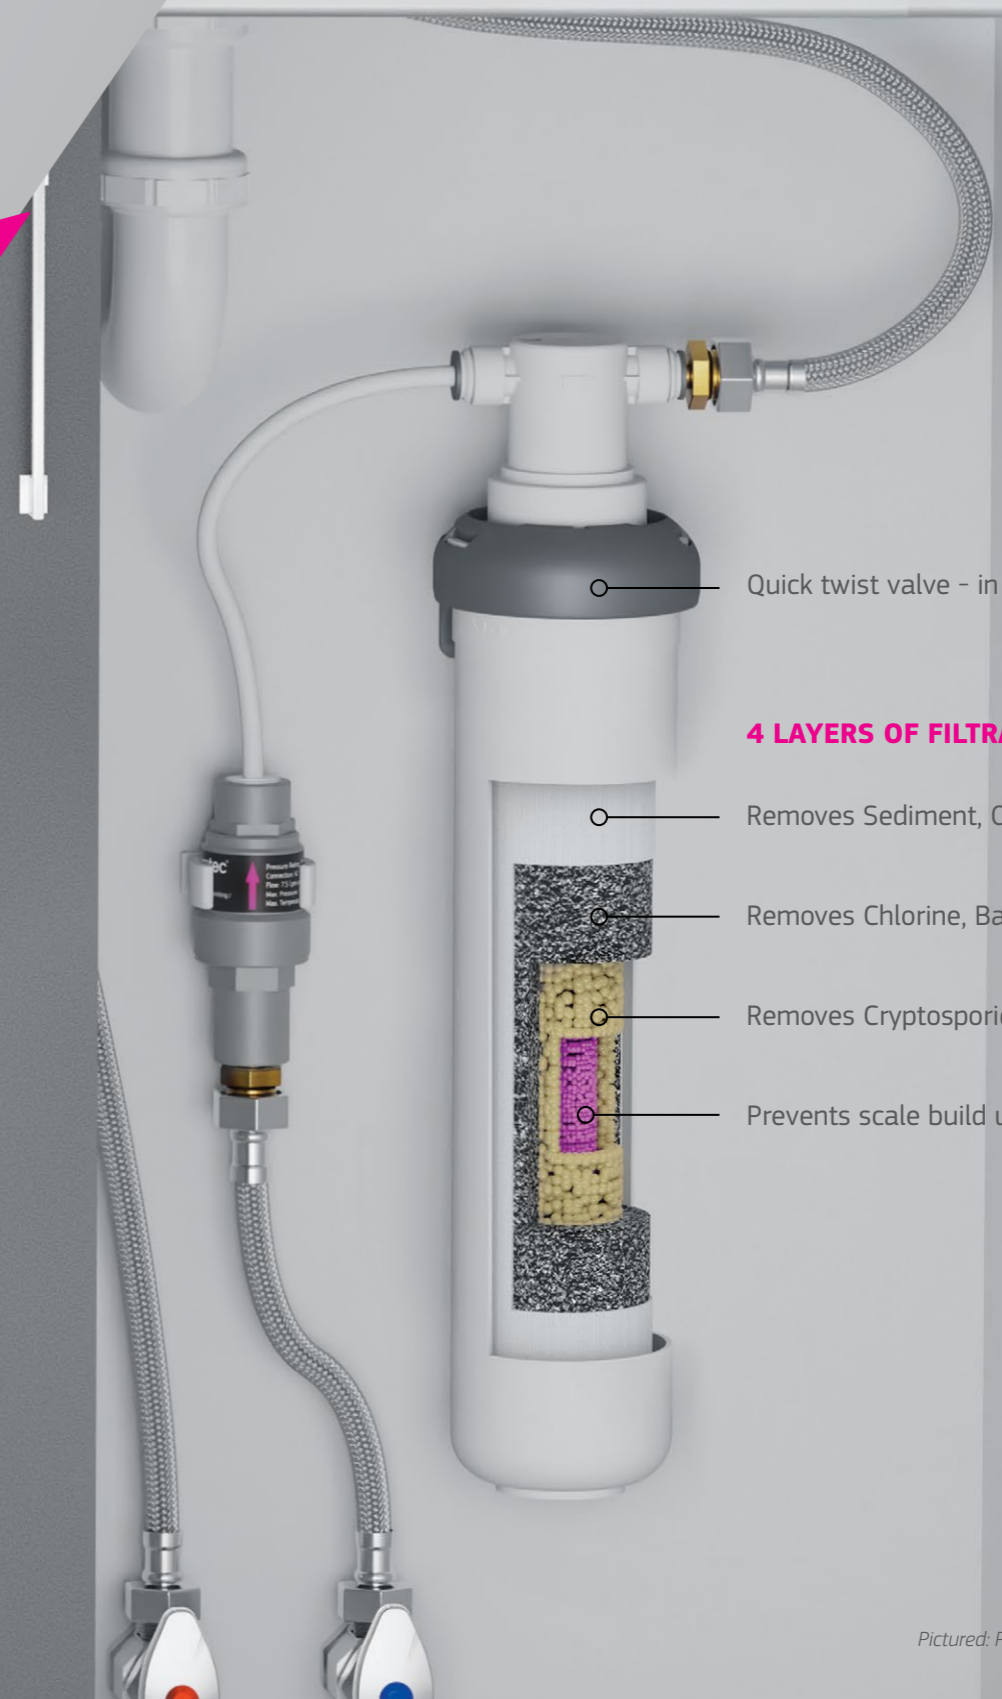

PUREMIX Z2

The PureMix Z2 is designed for applications with limited undersink space including bathrooms & kitchens. This 8 Lpm system filters out sediment, chlorine, bad taste & odour down to 1 micron.

Undersink Filtration

Multi stage filters that fit directly to your existing mixer tap.

Quick twist valve - in head.

4 LAYERS OF FILTRATION

- Removes Sediment, Organics & Particles.
- Removes Chlorine, Bad Taste & Odour.
- Removes Cryptosporidium & Giardia.
- Prevents scale build up.

Design your own tap & filter kit...

Combine a stylish 3-way mixer tap with an industry leading multi stage, 0.1 micron filter, which ensures that your filtered water is separate while not impacting the flow rate of your hot & cold water.

1 Choose your mixer tap

ELITE - 10 SERIES

GOOSENECK STYLE
100% STAINLESS STEEL

ELITE - 20 SERIES

STRAIGHT NECK STYLE
100% STAINLESS STEEL

Available in 5 different colours and finishes.

2 Choose your filter system

Z18

The Z18 combines a stylish filter tap with a Z1 undersink filter, providing 5.5 Lpm of clean, fresh water. The Z1 utilises Ultra Z technology to filter out chlorine, sediment & bacteria, including E. coli down to 0.1 micron.

R0270

The R0270, Reverse Osmosis tap & filter system, provides 270L/day of high purity water. The ultra-fine membrane rejects 98% of all dissolved impurities including heavy metals, salts, bacteria, fluoride & chlorine, to 0.0005 micron.

TS200

The TS200, combines a high loop designer faucet with a twin undersink 0.5 micron filter to provide clear, chlorine free water to your home. The 4 Lpm system ensures that filtered water is kept entirely separate from unfiltered water.

Z1-MW-K

The Z1-MW-K is a 5.5 Lpm, 0.1 micron filter that will remove chlorine, sediment & bacteria including E. coli & Giardia. The perfect partner for a stylish 3-way mixer tap.
