

Rainwater Filtration Product Guide

Puretec[®]
PERFECTING WATER

Protect* the health of your family with a Puretec rainwater filtration system.

Puretec offers a wide range of filtration solutions to suit your needs. From an undersink system to whole house protection, you can enjoy the peace of mind knowing you've got safe, purified water at every outlet in house.

BACTERIA

Bacteria can be present in rainwater due to the leaf matter & bird droppings etc, that it comes in contact with. Bacteria can be easily removed with a UV filtration system.*

SEDIMENT

Sediment such as dirt, sand or rust can make its way into your rainwater potentially resulting in a build up in your pipes & damage to your appliances, but can be easily removed with a quality water filter.

CHEMICALS

Rainwater picks up Co2 in the atmosphere, then chemicals and pesticides from your roof and gutters, which can be removed with a carbon block filter.

- 1 NTS3000 PH Neutralising System
- 2 HYBRID-G7 Whole House Filtration & Bacteria Protection
- 3 HYBRID-M1 Undersink 2-stage Filter
- 4 SPARQ S5* Chilled, Sparkling, Ambient
- 5 SPARQ S6* Chilled, Sparkling, Boiling
- 6 Tripla ELITE 3-Way Mixer Tap

*Protection based on being used on rainwater within the water quality parameters specified in the user guides.
*SPARQ S5 & SPARQ S6 requires pre-filtration

HybridPlus Series

A Complete Rainwater Filtration System

Designed specifically for rainwater, the patented Puretec HybridPlus is a complete plumb & play package with pump*, filters & UV steriliser all-in-one unit that is weatherproof, rodent proof, tamper proof and reduces pump noise.

The HybridPlus Series systems incorporate Radfire™ ultraviolet technology, a natural purification process that's completely eco-friendly, chemical-free and kills 99.9% of bacteria including E. coli, Giardia, and Cryptosporidium Cysts.

HYBRID-P6

86 Lpm, 1" Connection • CMB-SP 5-47 Pump (0.9kW)

HYBRID-P12

86 Lpm, 1" Connection • Pump 0.9kW mains to rain controller

HYBRID-P3

50 Lpm, 1" Connection • CMB-SP 3-47 Pump (0.5kW)

HYBRID-P9

50 Lpm, 1" Connection • Pump 0.5kW mains to rain controller

HYBRID-P1

120 Lpm, 1" Connection • Pump provision only

EM2 Series

Dual Water Filter Systems for Whole House and Buildings

The Puretec EM2 Series filtration systems are the appropriate choice for providing clean water throughout the house. This two-stage system will remove sediment, chemicals, taste & odour down to 5 microns. Use in conjunction with TankSafe for bacterial protection.

EM2-60

DUAL STAGE FILTRATION, 10" MODEL
60 Lpm, 1" Connection

EM2-110

DUAL STAGE FILTRATION, 20" MODEL
110 Lpm, 1½" Connection

TankSafe™

Kills up to 99.9% of all germs, bacteria and viruses

TankSafe™ is an alternative to dosing with chlorine, it's tasteless, odourless and chlorine free, designed specifically for tank water disinfection.

TankSafe™ is low cost and non-toxic when used as directed, while most chemicals used for water disinfection are toxic (some are even known carcinogens), TankSafe™ will stay in your tank and keep it protected from bacteria and pathogens for up to 2 months.

NTS Series

Neutralising Water Treatment Systems

Rainwater generally has a pH that is lower than 7. When water drops below 7 pH it becomes acidic (depending how low the pH drops) and in extreme cases, may begin dissolving copper from your pipes. This reaction results to the green and blue stain on your tap fittings, in your sink, bath and shower recesses.

The Puretec NTS Series is designed to correct the pH of your water. These units effectively utilise a calcium carbonate media to lift the pH which slowly dissolves into the water.
